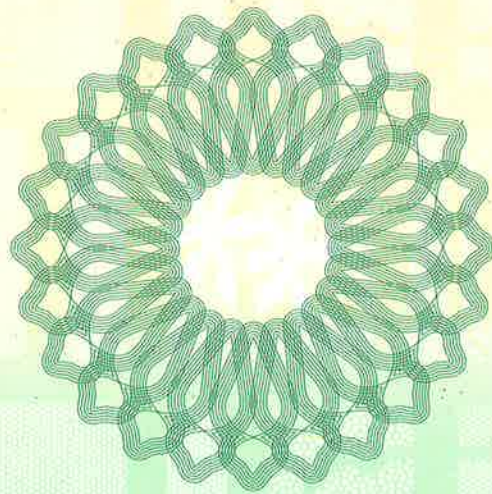

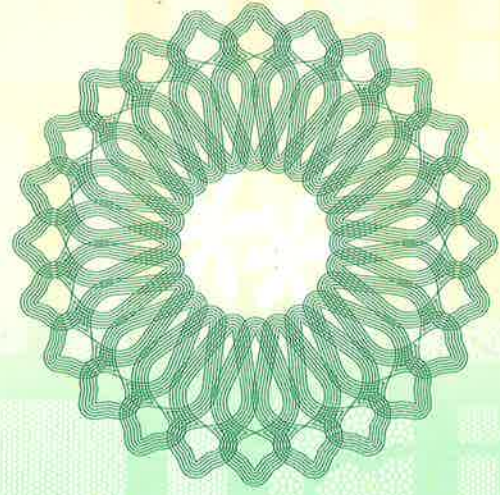

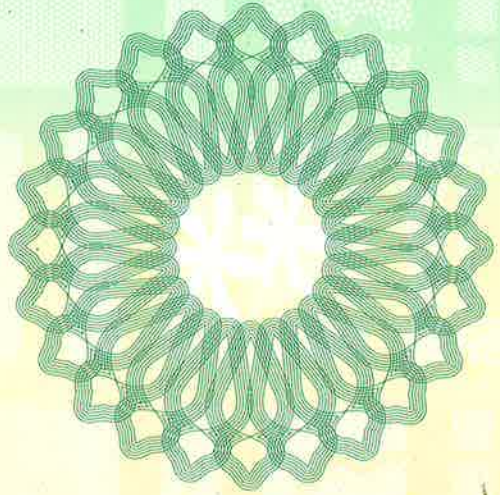

Figure 1 illustrates the steps of the bubble sort algorithm. The diagrams show the sequence of numbers being sorted (1 through 8) and the comparisons and swaps performed in each pass. The first pass moves the largest number (8) to the end. Subsequent passes move the next largest numbers (7, 6, 5, 4, 3, 2) to their respective positions, resulting in a fully sorted list (1, 2, 3, 4, 5, 6, 7, 8) after the seventh pass.
